

CI/CD for Udapeople

CI/CD – for One Team

- It's much better to know each other language for being on the same page
- CI/CD mechanism provide many solutions to make this happen like monitoring and automating every single step after writing the main code
- These tools make the process much easier and translated to direct increasing in revenue or reducing costs dramatically

Benefits of CI/CD

- Less developer time on issues from new developer code
- Less bugs in production and less time in testing
- Prevent embarrassing or costly security holes
- Less human error, Faster deployments
- Less infrastructure costs from unused resources
- New value-generating features released more quickly
- Less time to market
- Reduced downtime from a deploy-related crash or major bug
- Quick undo to return production to working state

Conclusion

We can reduce human errors with CD/CI
and make fast responsive solution!
